Mission Statistics

Introduction to Statistics

This section contains data for 23 current UN-commanded political missions. While the data presented here focuses on UN political missions, the 2013 edition of the Annual Review of Global Peace Operations will include expanded and more detailed coverage of these missions, as well as statistics related to the political missions of other international organizations.

The data in this section is based on public UN documents and sources, combined with data provided by the UN Department of Peacekeeping Operations (DPKO), the UN Department of Field Support (DFS), and the UN Volunteer (UNV) Programme in Bonn. Further description of the data is as follows:

Key Facts
This section lists latest key resolutions, dates and documents of initial mandates, and heads of mission.

Personnel Strength
This section covers staff strength as of 31 July 2012; further categorized as troops, Military Experts on Mission (MEMs), police, international civilian staff, national civilian staff, and UN Volunteers (UNVs) as applicable to each mission. MEMs include all military personnel engaged for peacekeeping service in an observer, liaison, or advisory capacity, including Military Observers (MilObs), Military Liaison Officers (MLOs), or Military Advisers (MilAdvs). When known, MEM personnel have been further classified as one of the three.

All figures on military personnel were obtained from the DPKO Force Generation Service (FGS). Statistics on police are based on reports from the Police Department (PD), and only include UN Police (UNPOL), and do not include professional staff. The Field Personnel Division (FPD) at DFS provided data on international and national civilian staff for all missions, while data on UNVs were acquired from the UNV Programme in Bonn. Of the field missions presented in this chapter, information on civilian staff for the UN Office in Yemen was not available.

Vehicles and Aircraft
Information on vehicles and aircraft, as obtained from the Logistics Support Division (LSD) at DFS, are reported as of 31 July 2012. Data on vehicles was not available for the following missions: Joint AU-UN Chief Mediator for Darfur, Personal Representative on the Border Controversy between Guyana and Venezuela, Special Adviser for Cyprus, Special Envoy for Sudan and South Sudan, and UN Office in Yemen. Statistics on vehicles deployed to the UN Regional Centre for Preventive Diplomacy for Central Asia (UNRCCA) are as of 30 April 2011. All aircraft in political missions are commercially contracted.

Budget and Expenditures
All 2011-2012 budgetary data have been derived from publicly available documents of the UN Advisory Committee on Administrative and Budgetary Questions (ACABQ) or the UN’s Administrative and Budgetary Committee (Fifth Committee). This section covers appropriations and estimated expenditures (1 January 2010 to 31 December 2011), as well as requirements for the following year (1 January to 31 December 2012). One exception is the
Office of the UN Special Coordinator for the Middle East Peace Process (UNSCO), which is funded through the regular budget. Due to the difference in reporting timeframes of those missions funded through the regular budget, financial reporting reflects resources from the bienniums from 1 January 2010 to 31 December 2011 and from 1 January 2012 to 31 December 2013. All estimated expenditures are preliminary and subject to change. Appropriations, expenditures and requirements are further classified into the following three categories, with some variation as applicable to each mission:

- **Military and police personnel.** Includes missions’ subsistence allowances, travel on emplacement, rotation and repatriation, death and disability compensation, rations and clothing allowances for military and police personnel.

- **Civilian personnel.** Includes provisions for salaries, staff assessment and common staff costs, overtime and hazardous duty stations allowances, as well as costs associated with UNVs.

- **Operational costs.** Costs associated with consultants and experts, official travel, facilities and infrastructure, ground, air and/or naval transportation in mission, communications, IT, medical, special equipment, other supplies, services and equipment and quick impact projects.
### Civilian Personnel Occupations in UN Field Missions: 31 July 2012
